

# *Employee Involvement Builds Commitment and Unlocks our Potential*

In June and July, we fell short of QA Techs.  
**Erika Castillo and Janice Walsh**  
were here six days a week  
and they came in for pre-op as well.  
They were here to ensure food safety  
and the quality of our product  
met specification and food safety standards.

Erika and Janice showed commitment  
to Vantage Foods by also doing extra work  
and completed 90 HACCP validation procedures.  
During this time, they also worked in the lab.

These girls superseded  
what was expected of them,  
and kept a positive attitude along the way.
