

# Quality is Everyone's Job 1!

**Danilo Macalintal**

Winnipeg Service Centre  
April 2009

**Danilo** has taken on the role of our raw material puller in the cooler.

This role is crucial to the timing and rhythm on the production floor. His issues and returns also drive the accuracy of our daily yield sheets.

Danilo's conscientious attitude and focus on doing a quality job have minimized errors in this area and improved the accuracy of our yields.

Keep up the good work!

quality commitment
